LEAD MULTICHOICE ® Ltd

Your Local Partner. Your Regional Advantage.

Connecting International Business to Rwanda Through Trust, Integrity and Local Expertise.

We bridge the gap between international manufacturers, authorized distributors, and suppliers and local purchasing entities in Rwanda through trade facilitation, procurement coordination, supply chain management, logistics, regulatory compliance support, and stakeholder relationship management.

1. About Us

LEAD MULTICHOICE ® Ltd is a private limited company registered in 2015 with the Rwanda Development Board (RDB) under Rwanda's applicable company laws, with its headquarters in Remera, Kigali, Rwanda.

We specialize in trade facilitation and business representation, connecting international manufacturers, authorized distributors, and suppliers with purchasing entities, institutions, and commercial organizations in Rwanda and the wider East African region.

Our role is to bridge the gap between international businesses and the local market by identifying business opportunities, facilitating introductions, coordinating communication, supporting procurement processes, and helping parties navigate local operating requirements.

We provide a coordinated local point of contact throughout the business engagement, from market intelligence and opportunity identification to procurement coordination, regulatory liaison, delivery monitoring, and post-delivery support.

Our agency model is built on transparency and clearly defined responsibilities. Where transactions are facilitated through our agency, the buyer and seller enter into their own commercial agreements and manage their contractual and payment obligations directly, unless otherwise agreed. LEAD MULTICHOICE supports the relationship through coordination, communication, follow-up, and operational assistance within the agreed scope of engagement.

Our objective is to build trusted business relationships, simplify cross-border trade, and support efficient, compliant, and reliable delivery of goods and services.

2. Our Core Services

2.1 Market Access & Trade Facilitation

We help international businesses identify and engage with relevant purchasing entities and commercial opportunities in Rwanda.

Our services include:

- Market intelligence and identification of supply opportunities.
- Tender and procurement opportunity monitoring.
- Introductions between international suppliers and local buyers.
- Market-entry guidance and local business representation.
- Supplier and purchasing-entity liaison.
- Commercial communication and stakeholder engagement.
- Follow-up on business opportunities from initial engagement through to potential contract award.

2.2 Procurement & Supply Chain Coordination

We facilitate communication and coordination between buyers and suppliers to support efficient procurement processes.

Our services include:

- Sourcing advisory and supplier identification.
- Procurement process coordination.
- Commercial communication and negotiation support.
- Purchase order and contract follow-up.
- Order tracking and delivery coordination.
- Supplier performance follow-up.
- Invoice coordination and payment-status follow-up, where authorized.

Commercial negotiations and contractual commitments remain between the relevant buyer and seller unless a separate arrangement is agreed.

2.3 Logistics, Distribution & Trade Compliance Support

We coordinate logistics activities and facilitate communication with relevant service providers and authorities to support the movement of goods.

Our services include:

- Local and regional transportation coordination.
- Shipment and transit tracking.
- Customs clearance coordination through appropriate channels.

- Liaison with relevant regulators and competent authorities.
- Import documentation and compliance coordination.
- Warehouse delivery, goods receipt, and acceptance follow-up.
- Distribution coordination and reverse logistics where applicable.

We help clients understand and coordinate applicable regulatory requirements, working with the relevant authorities and qualified service providers where necessary. Regulatory approvals and statutory decisions remain the responsibility of the competent authorities.

2.4 Project Coordination & Implementation Support

We support organizations delivering supply contracts, equipment installations, and operational projects in Rwanda and East African member countries.

Our services include:

- Project planning and resource coordination.
- Budget, milestone, and timeline monitoring.
- Stakeholder communication and relationship management.
- Delivery and implementation tracking.
- Progress reporting and issue escalation.
- Coordination with technical teams and local service providers.
- Invoicing and payment follow-up where included in the agreed scope.

Where appropriate, we facilitate real-time project updates and delivery tracking to improve visibility, accountability, and coordination.

2.5 After-Sales & Lifecycle Support

Our support can extend beyond delivery to help maintain effective relationships between buyers, suppliers, and end users.

Our services include:

- Warranty coordination and follow-up.
- Maintenance and technical support arrangements.
- Liaison between customers, manufacturers, and authorized service providers.
- Invoice and payment-status follow-up.
- Post-delivery issue resolution coordination.

- Reverse logistics and returns coordination where covered by the relevant agreement.

We aim to promote continuity, responsive service, and lasting commercial relationships.

3. Industry Expertise

LEAD MULTICHOICE supports trade and operational activities across several sectors.

Pharmaceuticals & Healthcare

We facilitate medical and pharmaceutical supply-chain coordination, sourcing advisory, supplier and customer engagement, and communication concerning applicable in-country regulatory requirements. We support coordination with relevant stakeholders and qualified parties to help ensure that supply processes follow applicable requirements.

Energy & Electrical Systems

We support the sourcing, supply, and delivery coordination of modular systems and electrical equipment for utility and distribution companies, telecommunications operators, and institutional clients. Our services include local stakeholder engagement, logistics coordination, and support with applicable regulatory and compliance processes.

General Supplies & IT Equipment

We facilitate sourcing, procurement coordination, equipment supply arrangements, and supplier-customer communication. Our support can extend from initial procurement discussions through delivery, invoicing coordination, warranty follow-up, and after-sales service arrangements.

Logistics & Trade

We coordinate shipment tracking from transit through customs processes and final delivery. Our support includes coordination with logistics providers, warehouse receipt and acceptance follow-up, post-installation logistics, and reverse logistics where covered by the applicable agreement.

Projects & Systems Implementation

We provide project coordination and implementation support for equipment, systems, and related operational assignments. Our services can include progress updates, delivery tracking, stakeholder coordination, implementation follow-up, and invoicing and payment-status coordination where required.

Our experience includes reported deliveries and supply activities involving institutional clients in healthcare, energy, and infrastructure-related procurement. Specific project references and credentials can be provided where authorized and appropriate.

4. Our Agency & Trade Facilitation Model

We believe successful trade depends on connecting the right businesses, establishing trust, and maintaining clear communication throughout the transaction.

LEAD MULTICHOICE operates as a local facilitator and business representation partner, helping international suppliers connect with relevant purchasing entities in Rwanda.

Our model focuses on five key areas:

1. **Connect:** Identify suitable buyers, suppliers, and market opportunities.
2. **Facilitate:** Support introductions, commercial communication, and procurement engagement.
3. **Coordinate:** Help align stakeholders, documentation, logistics, and delivery processes.
4. **Monitor:** Follow up on agreed milestones, delivery progress, and outstanding operational matters.
5. **Sustain:** Support after-sales relationships, warranty coordination, and future business opportunities.

The buyer and seller remain the contracting parties and manage their commercial and payment obligations directly, unless otherwise agreed. Our role, authority, responsibilities, and any applicable agency fees or commissions are defined by the relevant engagement or agency agreement.

This approach enables us to create value without unnecessarily duplicating the commercial responsibilities of the buyer or seller.

5. Why Choose LEAD MULTICHOICE?

Local Expertise

We understand the importance of local market knowledge, business relationships, and familiarity with Rwanda's procurement and supply chain ecosystem.

Trust & Integrity

We are committed to honest communication, ethical business conduct, transparency, and respect for the interests of the parties we represent.

Reliable Coordination

We prioritize timely follow-up, clear communication, delivery monitoring, and consistent engagement with clients, suppliers, buyers, and service providers.

Regulatory Awareness & Compliance Support

We help coordinate information, documentation, and engagement with relevant regulators and competent authorities to support compliance with applicable requirements.

Professional Stakeholder Management

We build constructive working relationships with purchasing entities, manufacturers, authorized distributors, logistics providers, institutional stakeholders, and other relevant partners.

Integrated Operational Support

We provide a coordinated local interface across market access, procurement, logistics, project implementation, and after-sales support.

Accountability & Continuity

We emphasize clearly defined responsibilities, documented communication, progress tracking, and follow-through beyond initial introductions or delivery.

Our goal is to simplify local business engagement, strengthen supplier-buyer relationships, and help international businesses pursue opportunities in Rwanda with confidence.

6. Our Mission

To connect international businesses with opportunities in Rwanda through trusted trade facilitation, ethical business representation, reliable coordination, and professional local support.

7. Our Vision

To become a trusted and respected regional partner for international manufacturers, distributors, and businesses seeking dependable market access, compliant trade facilitation, and effective supply-chain coordination in Rwanda and the wider East African region.

8. Our Core Values

Trustworthiness | Integrity | Reliability | Professionalism | Accountability | Partnership

- **Trustworthiness:** We build confidence through transparent engagement, responsible conduct, and consistent follow-through.

- **Integrity:** We uphold honesty, ethical practices, fairness, and respect for commercial agreements.
- **Reliability:** We strive to deliver timely communication, dependable coordination, and consistent operational support.
- **Professionalism:** We approach every engagement with competence, respect, discretion, and a commitment to quality.
- **Accountability:** We promote clear responsibilities, accurate reporting, and proactive follow-up on agreed commitments.
- **Partnership:** We foster long-term relationships based on mutual respect, shared objectives, and sustainable business value.

9. Partner With Us

Whether you are an international manufacturer seeking local market access, an authorized distributor pursuing procurement opportunities, a purchasing entity seeking dependable supplier connections, or an organization requiring local operational support, LEAD MULTICHOICE ® Ltd is ready to facilitate your engagement.

We bring together local market understanding, stakeholder relationships, procurement coordination, logistics support, and professional communication to help turn business opportunities into well-coordinated commercial outcomes.

From Market Opportunity to Successful Delivery.

Dedicated sections for pharmaceuticals and healthcare, energy and electrical systems, general supplies and IT equipment, logistics and trade, and project implementation.

05. Why Choose Us

The company's value proposition, agency model, local expertise, compliance coordination, professional standards, and verified project credentials.

06. Contact Us

Kigali office location, professional email, telephone number, and a business enquiry form for international suppliers, distributors, and local purchasing entities.

Recommended Business Email

For a professional corporate identity, consider establishing one of the following addresses under your company website domain, subject to domain availability:

- **info@yourdomain.com** — general enquiries.
- **business@yourdomain.com** — business development and partnerships.
- **trade@yourdomain.com** — trade facilitation and procurement enquiries.

A dedicated domain-based email will strengthen your company's professional image and make communication with international manufacturers, distributors, and institutional buyers more credible.

Before publishing, verify the company's legal registration details, any claimed industry credentials, and the scope of regulatory services offered. Use only authorized project references and confirmed contact information.
